Summary

Dedicated and motivated with a strong academic background and a passion for software engineering. Eager to apply knowledge and skills gained through coursework, along witth teamwork, problem-solving, communication and skills to contribute to a dynamic and innovative team. Seeking an opportunity to kickstart a successful career and make a positive impact in software industry.

Graduation project

Hand written digit recognition using neural network
01/2023 - 06/2023

Graduation Project.
Handwritten digit recognition using MNIST dataset is a major project made with the help of Neural Network. It basically detects the scanned images of handwritten digits.
We have taken this a step further where our handwritten digit recognition system not only detects scanned images of handwritten digits but also allows writing digits on the screen with the help of an integrated GUI for recognition.

Education

Board of Technical Education U.P
Diploma in Computer Science and Engineering
09/2017 - 08/2020
- Coursework in Algorithms, Computer security, Database management, Natural language processing.

Abdul kalaam technical university U.P
B.tech in Computer Science and Engineering
12/2020 - 07/2023
- Coursework in DSA, CNN, Artificial intelligence etc

Skills

Coding: Java · C# · Javascript · Python · PHP · Mysql · Html · Css · React · Tool / Technology

Group Title: Communication · Project management · Stress management

Training / Courses

Java by Dzine solution

Python by DZine solution

Php by DZine solution

JavaScript by Dzine solutions

Strengths

◆ Communication, Problem solving, Confidence, Straight forward
That helps me to stand out and encourage me to use my 100% potential

Passions

◆ Web development
